Volunteer Spotlight:

Meet Rosie she has been volunteering at SCHS for 4 years. Rosie volunteers at PetSmart, and she also volunteers on the SCHS PAWS TV show which is broadcast on Charter channels 95 and 990 on Weds. at 1 pm & Thurs. at 7:30 pm. At first she was wary of being on camera but now she doesn't mind. She always wants to make sure the focus is on the animals by holding them up. In the past she took dogs to mobile adoption which is held at the Memorial Mall. It was fun. She drives a truck so it was always a challenge to get the big dogs in and keep the smaller ones in their seat. She had to stop one time on the way to the mall to extricate a dog from behind the seats. She became a volunteer because of Louise Hansen, who volunteered at the shelter for many years. Louise was so involved and Rosie admired that. She wanted to help her as well as the animals.

Her fondest memories of volunteering are always of the kitties. She loves it when we have kittens at PetSmart. They are so funny. It seems they never stop moving when they are out of their cage. It's always so fun when you can open all the cages and let everyone out together and they run and play and tumble over each other. And the very best part is when we can send the kitties to their forever home!

Thanks to Rosie for her dedication at PetSmart in Sheboygan & also Paws TV. If you would like to volunteer then go to www.myschs.com and click on Volunteer, fill out an application and return it to the shelter via e-mail or stop in and drop it off.

Featured Cat – Naomi:

Hi, I'm Naomi and I'm looking for love this Valentine's Day. The love of my very own family. I've been at the shelter since September, and someone brought me here because I was out in the world all

alone. I'm 3 years old and am very playful and loving, but I can be a little shy at times. I do like other kitties, so if I have a friend that would be just great. I'm staying at PetSmart in Grafton, and I'd be so happy if you came to meet me. Won't you be my Valentine?

We are currently looking for volunteers at PetSmart in Grafton for weekends and Wednesday evenings. Fill out an application today and drop it at the shelter or e-mail it to us at info@myschs.com.

Fun Animal Facts:

- Dogs' noses secrete a thin layer of mucous that helps them absorb scent. They then lick their noses to sample the scent through their mouth.
- A Dog's sense of smell is 10,000 – 100,000 times more acute as that of humans.
- It's a myth that dogs only see in black and white. In fact, it's believed that dog's see primarily in blue, greenish-yellow, yellow and various shades of gray.
- Dogs curl up in a ball when they sleep due to an age-old instinct to keep themselves warm and protect their abdomen and vital organs from predators.
- Unlike dogs, cats cannot taste food that is sweet
- A cat's hearing is better than a dog's. And a cat can hear high-frequency sounds up to two octaves higher than a human.

Do you have a feline leukemia cat or feline FIV cat at home. If yes, please contact us if you are interested in adopting another cat. Occasionally we get positive cats and would love to place them in a home if we know there is one available. Cats that are positive for either would not be suitable in homes where a cat is not positive. They are only suitable for homes without cats or with cats that are already positive.

Have a large farm or a hobby farm? We occasionally get feral cats that can't be placed in homes but would make a perfect addition to your outdoor cat colony. The cats would be spayed/neutered and up to date on vaccines. Please email info@myschs.com if you are interested in more information about homing feral cats!
