Chesterton

Volunteer Spotlight:

Meet Ed he has been volunteering at SCHS for over 8 years. Ed works with socializing the dogs and also spends time with the cats. He became a volunteer because he's always loved animals. He keeps coming back because of the animals and the nice employees at the shelter.

He has many memories at the shelter, but one that stands out is a German Shepherd mix that we were having troubles with last year. She would scream and then run whenever we tried to touch her. Thanks to McDonald's and the power of the cheeseburger he was able to work with her and gain her trust. Shortly after that she was adopted.

Thanks to Ed for his dedication to volunteering at the shelter. If you would like to volunteer then go to www.myschs.com and click on Volunteer, fill out an application and return it to the shelter via e-mail or stop in and drop it off.

Featured Cat – Amira:

Hi, I'm Amira and I'm hoping I'm lucky enough to find my forever home this March. I've been at the shelter since October. I'm 3 years old and came in as a stray. I am a very

friendly girl that is playful and likes attention and to be pet. I would really like to be in a home without other cats or dogs, so I can give you all of my attention. I'm staying at PetSmart in Sheboygan right now. I'd really like to meet you, and hope to see you soon.

Fun Animal Facts:

- The heaviest domestic cat on record is 46 lb 15.2 oz.
- The most popular breed of dog in the world by registered ownership is the Labrador. With their gentle nature, obedience, intelligence and near limitless energy, Labradors make for excellent family pets and reliable workers. They often assist police and are a common choice as guide dogs.
- Cats use their whiskers to check whether a space is too small for them to fit through or not.
- Male pups will intentionally let female pups "win" when they play-fight so they can get to know them better.
- There are more than 500 million domestic cats in the world, with 33 different breeds.
- The more you talk to your cat, the more it will speak to you.
- Service dogs are trained to know when they are on duty. When their harness is on, they know it's business time. When you take it off, the pups immediately become playful and energetic.

We are currently looking for volunteers at PetSmart in Grafton for weekends and Wednesday evenings. Fill out an application today and drop it at the shelter or e-mail it to us at info@myschs.com.

We are seeking local businesses that would like to have an SCHS Giving Tree at their location to collect wish list items for the shelter. If you're interested, please contact us by e-mail info@myschs.com or call the shelter.

Do you have a feline leukemia cat or feline FIV cat at home?

If yes, please contact us if you are interested in adopting another cat. Occasionally we get positive cats and would love to place them in a home if we know there is one available. Cats that are positive for either would not be suitable in homes where a cat is not positive. They are only suitable for homes without cats or with cats that are already positive. Dante is one of the FIV cats looking for a new home.
